Statement of Policy:
URBAN ANTHROPOLOGY will publish articles by anthropologists in any of the subfields of anthropology provided that they pertain to the subject matter of the journal. Contributions by other social and behavioral scientists will also be welcomed when they contribute to a greater understanding of the field of urban anthropology. Contributions must be original articles; that is, they must not have appeared as a publication in any form previous to their publication in URBAN ANTHROPOLOGY. Selection of articles for publication will favor those that relate to a body of substantive data.
